Ornametals Manufacturing Engages Amir Massihzadeh

Ornametals Manufacturing is pleased to announce that starting immediately Mr. Amir Massihzadeh, P.E., will lead the company's sales, marketing, and business development activities. Formerly the President of RHEINZINK America, Inc., Mr. Massihzadeh is the principal of ORION Architectural Systems, located in Denver, Colorado. Amir is a registered Professional Engineer and has 28 years of experience in the design and construction industry. Ornametals is the U.S. manufacturer of the eurogutterUSA system, a complete range of high quality and green rain drainage products.

"I am excited about the opportunity to work with Ornametals. Ornametals has high quality product lines and is poised to be the leader in high end gutter systems," says Mr. Massihzadeh. "I am very enthusiastic to support a U.S. manufacturer that is capable of manufacturing multi-metallic rain water drainage systems and is committed to top quality products and service."

Ornametals Manufacturing began operations in mid-2008, commencing manufacturing of gutter and downspouts in September. Guenther Huber, President of Ornametals, has been a leader and innovator in the architectural sheet metal industry for 30 years. With the move to U.S. manufacturing, Ornametals seeks to join the quality and durability of European goods with the service and efficiency of U.S. operations. Primarily focusing on half-round copper and zinc gutters and welded downspouts, Ornametals also offers a complete range of architectural sheetmetal products. In addition, Ornametals is an industry leader in historical renovation of roofing systems and provides design and consultation services to the residential and commercial new construction markets.

"Amir has the expertise on a national level to focus our sales and marketing activities and grow our business," says Mr. Huber. "We could not be more pleased that Amir has agreed to lead us into the future."

Located in Cullman, Alabama, Ornametals manufactures its product line in a 27,000 square foot facility on state-of-the-art equipment. For more information, contact Ornametals at (256) 350-7410.
